

CSE445 Gradescope Assignment Submission Tutorial

Please follow this tutorial to submit your assignment. A full Gradescope submission tutorial can be found at:

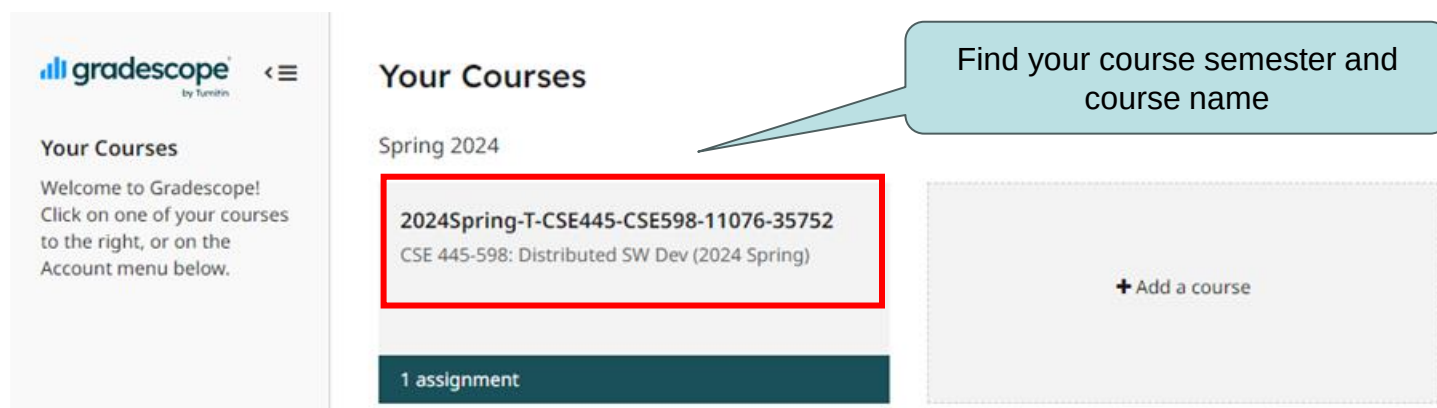

<https://help.gradescope.com/article/ccbpppziu9-student-submit-work>

The following is a short tutorial. If the steps are not clear enough for you, please follow the full tutorial link above.

Step 1. Find Gradescope in your Canvas Course page:

If you have already used Gradescope in other courses, you can enter from your Gradescope account and find this course as follows:

Step 2. Click and Enter the Assignment page:

35752

CSE 445-598: Distributed SW Dev (2024 Spring)

Dashboard

Assignment 3

JAN 10, 2024 12:00 AM FEB 4, 2024 11:59 PM

Late Due Date: FEB 6, 2024 11:59 PM

Check the due date for your course

Step 3. Make sure that your code file is named: [submission.cs](#)

Either drag and drop the code file into the submission window or use the selection option:

(1) Drag and Drop:

gradescope

2024Spring-T-CSE445-CSE598-11076-35752

Course ID: 696386

Description

CSE445-598 Distributed Software Development

Name Status

Assignment 2 No S

Submit Programming Assignment

Upload all files for your submission

Submission Method

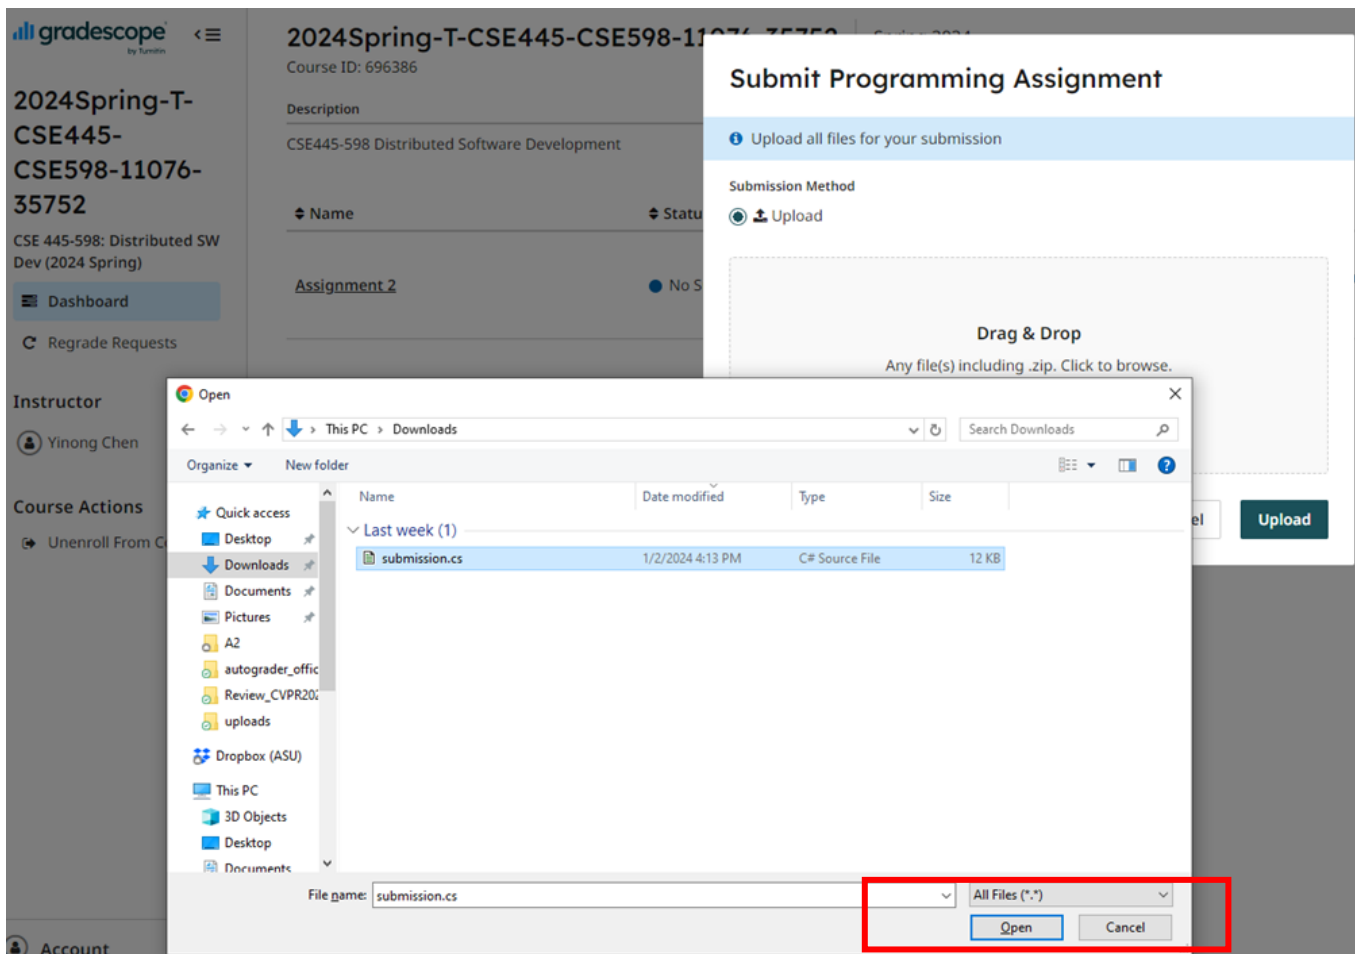

Upload

Drag & Drop

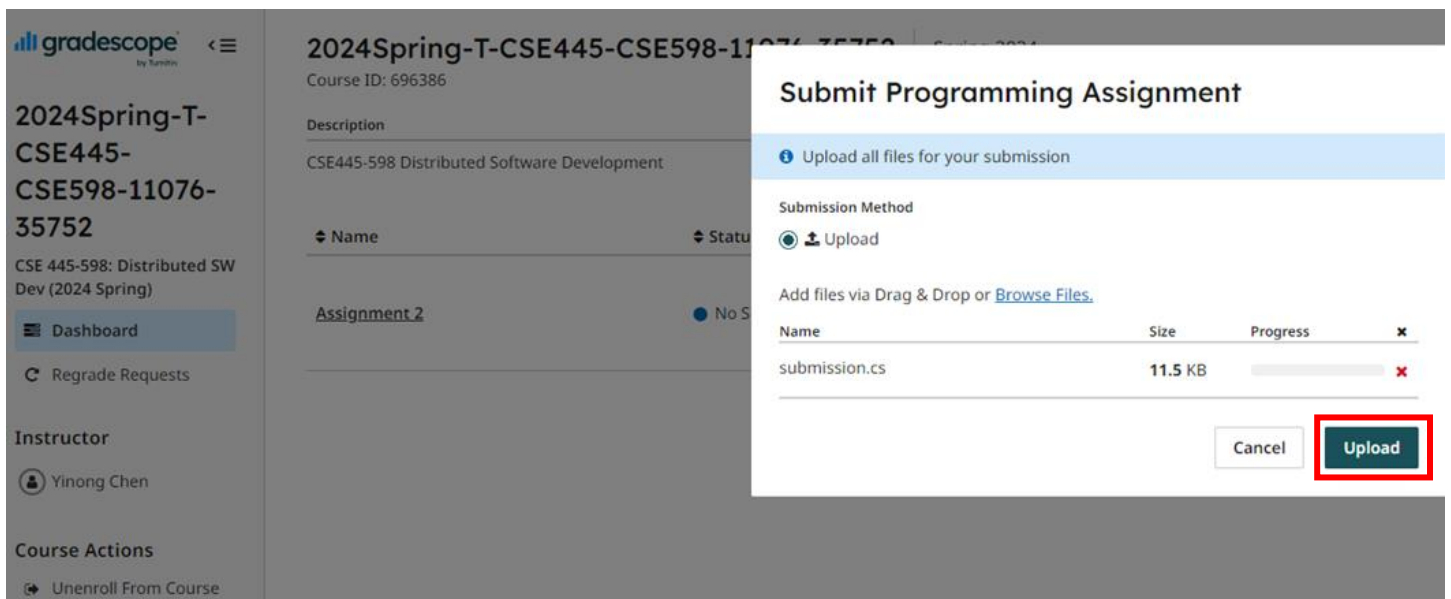

Any file(s) including .zip. Click to browse.

Cancel Upload

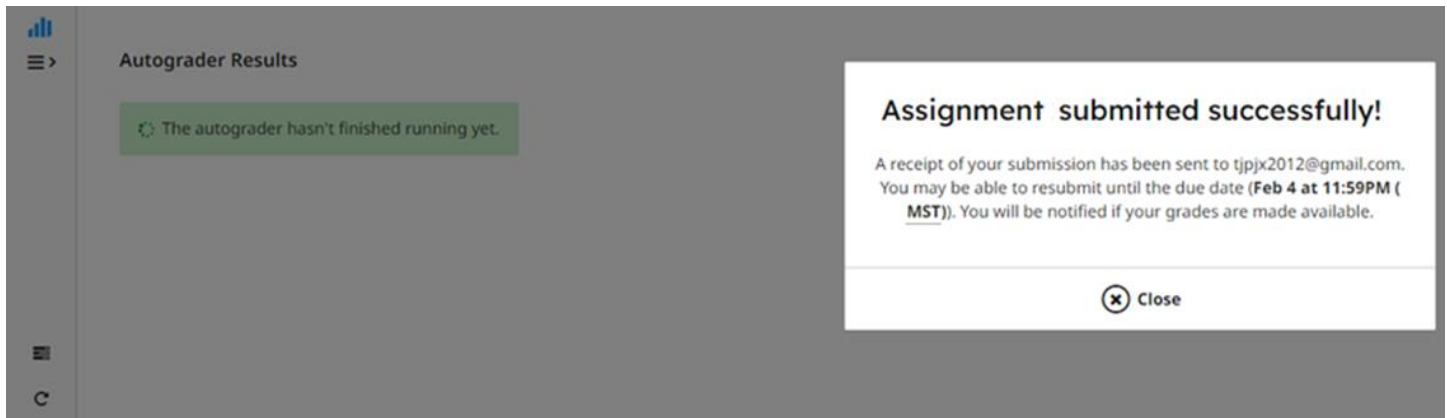

(2) Or, use selection option:

Step 4: Click “Upload”

You should see now: Your code is uploaded successfully.

Upon reaching this page, your code will undergo automatic grading by the autograder. This procedure might take up to 120 seconds.

It's important to note that the autograder has a timeout limit of 10 minutes. In case your code enters an infinite loop, it will be terminated after reaching the 10-minute timeout limit.
